SCOPE OF THE JOURNAL

International Journal of Ad hoc, sensor & Ubiquitous Computing (IJASUC) is a bi monthly open access peer-reviewed journal provides excellent international forum for sharing knowledge and results in theory, methodology and applications of Ad Hoc & Ubiquitous computing. Current information age is witnessing a dramatic use of digital and electronic devices in the workplace and beyond. Ubiquitous Computing presents a rather arduous requirement of robustness, reliability and availability to the end user. Ad hoc, Sensor & Ubiquitous computing has received a significant and sustained research interest in terms of designing and deploying large scale and high performance computational applications in real life

Topics of interest include, but are not limited to, the following

- Ad Hoc Computing
- Ad Hoc Networks of Autonomous Intelligent Systems
- Addressing and Location Management
- Architectures, Protocols, and Algorithms
- Data Management Issues
- Distributed Technology
- Mobile Ad Hoc Learning
- Mobile and Wireless Ad Hoc Networks
- Mobile Agents for Ad Hoc Networking
- Network Design and Planning
- Novel Architectures for Ad Hoc and Sensor Networks
- Performance Analysis and Simulation of Protocols
- Power-Aware and Energy-Efficient Designs
-
- Quality of Service
- Resource Allocation
- Security and Privacy
- Self-Configuring and Self-Healing Schemes
- Services and Applications
- Wireless & Mobile Network Security
- Wireless Sensor Network
- Sensor Networks
- SOA
- Architectures, Protocols and Algorithms
- Data Allocation and Information
- Deployments and Implementations Embedded, Network-Oriented Operating Systems
- Energy Optimization
- Hardware Aspects of Sensor Design
- Location Management and Placement

- MAC Protocols for Wireless Sensor Networks
- Middleware and Software Tools
- Modeling and Performance Evaluation
- Radio Issues with Other Wireless/Mobile Systems
- Resource Allocation, Services, QoS and Fault Tolerance
- Scalability of Wireless Sensor Networks
- Security and Dependability Issues
- Sensor Circuits and Devices
- Software, Applications and Programming
- Under Water Sensors and Systems
- Visualization of Sensor Data
- Work models
- Ubiquitous Computing
- Architectural Structure, Design Decisions and Philosophies
- Autonomic Management of Ubiquitous Systems
- Context and Location Awareness, Context Based and Implicit Computing
- Distributed Computing
- Ubicomp Human-Computer Interaction for Devices
- Intelligent Devices and Environments
- Internet Computing and Applications
- Interoperability and Large Scale Deployment
- Middleware Services and Agent Technologies
- Personalized & Special Field Applications
- Security Issues and Applications
- Service Discovery Mechanisms and Protocols
- Software Infrastructures
- System Support Infrastructures and Services
- Ubiquitous Systems and Trust
- User Interfaces and Interaction Models
- Virtualization Over Networks of Devices
- Wearable Computers and Technologies
- Wireless Networking and Mobile, Pervasive and Ubiquitous Computing
- Mobile Computing

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to submit papers for this journal through **Email: ijasucjournal@airccse.org or ijasuc@airconline.com** or through Submission System. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Copy Right Form

For all papers published in AIRCC journals, the copyright of the paper is retained by the author under Creative Commons (CC) Attribution license. This license authorizes unrestricted circulation and reproduction of the publication by anybody, as long as the original work is properly cited.

Publication charges will be applied for all peer-reviewed accepted papers, to cover the cost of publication.

Email the journal secretary at ijasucjournal@airccse.org / ijasuc@airconline.com to receive the copy right form

Special Issue Proposal

IJASUC invite proposals for special issues on topics that fall within the scope of this journal. Please email your proposal to secretary@airccse.org.
