SCOPE OF THE JOURNAL

Computer graphics and animation has become a key technology in determining future research and development activities in many academic and industrial branches. The aim of this journal is to be an international peer-reviewed open access forum for scientific and technical presentations and discus the latest advances in Computer graphics and animation.

Topics of Interest

Computer Graphics

- Modeling
- Rendering
- HCI/user interfaces
- Graphical models
- Model Validation
- Computer Art
- 3-D object Extraction
- AI techniques
- Computer Aided Design

Animation

- Computer Animation
- Algorithms & Techniques
- Animation Systems
- Mobile Control Kinematics
- Plausible Motion Simulation
- Animation Languages
- Robotics
- Behavioral Animation
- Human Figure Animation
- Character Animation

Visualization

- Visualization, Virtual Reality and Augmented Reality
- Media immersion
- Graphics User Interface
- Information Visualization
- Visualization Software
- Computer Games
- Graph and Network Visualization
- Real-Time Simulation
- Human Perception

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
