

International Journal of Grid Computing & Applications (IJGCA)

ISSN: 0975-7023(Online); 0975-7252(Print)

<https://airccse.org/journal/ijgca/ijgca.html>

SCOPE OF THE JOURNAL

Service-oriented computing is a popular design methodology for large scale business computing systems. Grid computing enables the sharing of distributed computing and data resources such as processing, networking and storage capacity to create a cohesive resource environment for executing distributed applications in service-oriented computing. Grid computing represents more business-oriented orchestration of pretty homogeneous and powerful distributed computing resources to optimize the execution of time consuming process as well. Grid computing have received a significant and sustained research interest in terms of designing and deploying large scale and high performance computational in e-Science and businesses. The objective of the journal is to serve as both the premier venue for presenting foremost research results in the area and as a forum for introducing and exploring new concepts.

Authors are solicited to contribute to this Open Access peer-reviewed Journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the following areas, but are not limited to

Topics of interest include, but are not limited to, the following

- Applications, including eScience and eBusiness Applications
- Architectures and Fabrics
- Distributed and Large-Scale Data Access and Management
- Core Grid Infrastructure
- Peer to Peer Protocols in Grid Computing
- Network Support for Grid Computing
- Monitoring, Management and Organization Tools
- Networking and Security
- Performance Measurement and Modelling
- Metadata, Ontology, and Provenance
- Middleware and toolkits for Grid Computing
- Computing and Programming Models
- Programming Tools and Environments
- Distributed Problem Solving
- Creation and Management of Virtual Enterprises and Organizations
- Information Services
- Resource Management, Scheduling, and Runtime Environments
- Scientific, Industrial and Social Implications
- QoS and SLA Negotiation
- Grid Economy and Business Models
- Autonomic and Utility Computing on Global Grids
- Cluster and Grid Integration Issues
- Web Services, Semantic Grid and Web 2.0
- Grid related Applications
- Data Mining on grids
- Data Mining Applications
- Big Data

Members of the Editorial Board

Editor In Chief:

Dhinaharan Nagamalai, Wireilla Net Solutions, Australia

Editorial Board:

Abdel-Aziz Ahmed, Anna University, India
Abdelghani Alidra, University of Skikda, Algeria
Abdelkader Adla, University of Oran, Algeria
Abdelmonaime Lachkar, ENSA-SMBA University Fez, Morocco
Abhijit Arma, Gauhati University, India
Ajay K Sharma, Dr B R Ambedkar National Institute of Technology - India
Ali El Kamel, Higher Institute of Computer Sciences and Multimedia, Tunisia
Ali El-Zaart, Beirut Arab University, Lebanon
Ashok Kumar T.A, Christ University, India
Ashok Kumar, University of Louisiana, USA
Atif Farid Mohammad, University of North Dakota, USA
Baghdad Atmani, University of Oran, Algeria
Debasis Giri, Haldia Institute of Technology, India
Eric Renault, Institut Telecom - Telecom SudParis, France.
Fatih Korkmaz, Cankiri Karatekin University, Turkey
Gaurav Ojha, Indian Institute of Information Technology and Management, India
Henrique J. A. Holanda, Universidade do Estado do Rio Grande do Norte, England
Jeril Kuriakose, Manipal University Jaipur, India
Kamaraju M, Gudlavalleru Engineering College, India
Karthikeyan B, Vellore Institute of Technology, India
Ketki Kante, Nagpur University, India
Kunwar Singh Vaisla, BT Kumaon Institute of Technology, India
Lachachi Nour-Edine, Oran University, Algeria
Lakhan Singh, Vishveshwarya Group of Institutions, India
Lei Wu, University of Houston-Clear Lake, USA

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to submit papers for this journal through Email: ijgca@airconline.com or through [Submission System](#). Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Manuscript Template

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Copy Right Form

For all papers published in AIRCC journals, the copyright of the paper is retained by the author under Creative Commons (CC) Attribution license. This license authorizes unrestricted circulation and reproduction of the publication by anybody, as long as the original work is properly cited.

Publication charges will be applied for all peer-reviewed accepted papers, to cover the cost of publication.
